DATA QUALITY & CONTEXT NOTES

Note 1 — Sensor reliability
Heart rate and RHIE data should be treated as indicative only. According to coaching team, incomplete sensor coverage and recurring device malfunctions were observed across multiple matches affecting a significant number of players, including Li Ke, and heart rate data missing across several games.

Note 2 — Max speed
Peak match speed 27.7 km/h (Match 1) – top speed of the team. Training peak 28+ km/h.

Note 3 — HSR/Sprint variation
Reduced output in the April 2026 window reflects a congested schedule of 5 matches in 15 days. Match 2 was played less than 48 hours after Match 1.

Note 4 — PL/min
Below squad average, consistent with a centre-back role completing full matches.
